

Construction Worker and Machinery Operation

Construction workers undertake manual labour on construction sites using hand tools. They demolish buildings, construct buildings, lay paving, drill tunnels, landscape exteriors and pour concrete. Machinery operators have specific qualifications and licences to operate pieces of machinery like bobcats and excavators on construction sites.

Jobs in this sector could include construction workers, labourers and machine operators. They can also be quite specialist, such as excavator operators, drill operators and crane operators.

Pathway:

- Construction induction training (White Card)
- Ticket and licence accredited courses
- On the job training
