

Environmental and Safety

Environmental and safety roles oversee, manage and implement environmentally sustainable initiatives and safe work practices.

Surveying technicians apply technical principles to design, and prepare and revise maps, plans and charts. Those involved in overseeing the safety of the construction industry inspect worksites, working conditions, equipment and machines to ensure compliance with government and industry standards and regulations in relation to Workplace Health and Safety (WHS).

Jobs include building certifiers, environmental advisers, environmental coordinator, project quality manager, WHS advisers, WHS controllers, safety officers, safety advisers and Health Safety Environment (HSE) coordinators.

Pathway:

- University degree
- Accredited courses
- On the job training
